

Animate Quiz Show

Open a new Animate Actionsript 3.0 file. Save it as #_lastname_quiz_show fla.

Choose a subject to create a quiz show for. It can be for/about a specific class you have, pop culture, sports, music.

Requirements:

- 10 – 15 questions with 3-4 answer choices for each question
- Include some animation related to your subject matter
- One scene for each question
- A scene for “WRONG ANSWER, try again”
- 10-15 scenes for “RIGHT ANSWER, move to the next question”
- Frame rate should be 30 fps
- Scenes should be named with all lower case, no spaces
- Create symbols so you can reuse main parts of the animation
- Each button should be a rollover button
- Use Actionsript to link to the correct scene
- Use Actionsript to STOP at each scene giving the viewer time to watch it

Helpful Hints

Name your layers, lock them and hide them as necessary.

Use Motion Tweens and/or Shape Tweens

Think about timing

Add sound effects from the Common Library
