Abboud	How to play chess	Would you like to learn to play chess? Whether you are a true beginner or an experienced player, join us for an exciting game that is not only fun to play but also presents opportunities for social, cognitive and intellectual benefits. Chess can help you make friends, build confidence and improve your decision-making ability. It will also help develop creativity, increase problem solving skills, exercise both sides of the brain, help build dendrites, raise your IQ, improve memory and spatial awareness, expand your ability to create strategies, and increase your focus and decision-making skills. As Chess Grand master Simon Williams, states, "The beauty of chess is it can be whatever you want it to be. It transcends language, age, race, religion, politics, gender, and socioeconomic background. Whatever your circumstances, anyone can enjoy a good fight over the chess board."
Alderfer	Student Council	A place for current Student Council members to make-up for missed meetings, help work on projects to earn extra points, and a chance for officers to meet in order to avoid after-school officer meetings. If you wish to be an officer in Student Council next year, this will also help you to prepare for your campaign.
